Professional Experience

Current Employment

Dodgeville Veterinary Service Dodgeville, Wisconsin	August 2018 - Present
--	-----------------------

- Associate veterinarian
- AAHA Accredited Practice
- Fear Free Certified

Previous Employment

Riverdale Veterinary Clinic Muscodia, Wisconsin Dr. H Clay Dean	July 2017 - August 2018
---	-------------------------

- Associate veterinarian
- Caseload split predominantly between equine and small animal (roughly 50/50) with emergency on-call responsibilities including other large animal species (ruminants).
- Full small animal surgery responsibilities for the practice, mostly for elective procedures (spays, neuters, declaws, dental prophylaxis) with exposure to non-elective procedures (including but not limited to abdominal exploratory and cesarean sections)

Internship experience

Wisconsin Equine Clinic & Hospital Oconomowoc, Wisconsin	June 2016 - July 2017
---	-----------------------

- Rotating hospital internship. 2 week rotations between medicine, surgery, and field service. Emphasis based on exposure to various cases and procedures (including surgery) performed at a large referral center.
- During the breeding/foaling season additional emphasis was placed on pregnancy checks as well as breeding (AI and live cover).

Pertinent externship experiences

Rood & Riddle Equine Hospital

July 2014

Lexington, Kentucky

- Worked closely with clinicians in different areas of the hospital - including ambulatory, internal medicine, theriogenology, surgery, and podiatry.
- Duties included being available to assist clinicians, residents, and interns as needed both in the field and in the hospital, as well as assisting interns with daily bandage changes.
- Gained exposure and experience in common procedures in theriogenology while working with Dr. Etta Bradecamp such as equine rectal palpation, ultrasound, semen collection and processing, and AI procedures.

Littleton Equine Medical Clinic

June 2014

Littleton, Colorado

- Worked closely with different clinicians and gained exposure to a wide variety of common procedures in equine practice.
- Duties included attendance to morning case rounds, observation of medical and surgical procedures, assisting clinicians and interns as needed, and being responsible for morning SOAPs and patient treatments.
- Gained experience in a variety of areas including equine lameness exams, joint injections, necropsies, and imaging techniques in the clinic and in the field.

Hagyard Equine Medical Institute

April 2015

Lexington, Kentucky

- Worked closely with clinicians and fellows in different areas of the hospital, especially in the neonatal intensive care unit.
- Challenged on a daily basis by clinicians to think critically and seek additional knowledge on cases seen in the clinic.
- Stayed on-site during time at the clinic and was available to assist with emergency calls.

Rood & Riddle Equine Hospital

April 2015

Lexington, Kentucky

- Worked closely with clinicians in different areas of the hospital - including ambulatory, internal medicine, theriogenology, surgery, and podiatry.
- Spent a large amount of time in the neonatal intensive care unit.

Wisconsin Equine Clinic & Hospital

July 2015

Oconomowoc, Wisconsin

- Worked closely with clinicians in different areas of the hospital - including surgery, medicine, and theriogenology
- Assisted in morning and evening treatments.
- Gained experience in the identification and localization of equine lameness as well as treatment options.

Brodhead Veterinary Medical Center

September 2015

Brodhead, Wisconsin

Dr. Phil Frost

Dr. Shawn Melvin

Dr. Emily Dahlgran

- Became proficient in collecting thorough patient histories and relevant information.
- Worked with large and small animal practitioners both in the clinic and out in the field.
- Gained additional hands-on experience with elective spay and neuter procedures in both feline and canine species.

Littleton Equine Medical Clinic

September-October 2015

Littleton, Colorado

- Worked closely with clinicians and gained exposure to a wide variety of common procedures in equine practice.
- Duties included attendance to morning case rounds, observation of medical and surgical procedures, assisting clinicians and interns as needed, and being responsible for morning SOAPs and patient treatments.
- Gained experience in a variety of areas including equine lameness exams, joint injections, necropsies, and imaging techniques in the clinic and in the field.
