

Marcus J. Wisniewski, DVM, CVSMT, CVMRT, FCoAC

It is truly a gift to do what you love every day and share that with other professionals and students. Serving on the faculty at the Healing Oasis Wellness Center allows me to convey my passion for spinal manipulation and neuroanatomy to others and improve my skill set and knowledge base in each class and individual Module through refinement and study. The VSMT program changed the way I practice veterinary medicine and the way I look at patients. I take tremendous pride in watching as it does the same for our students.
