

## VMRT - Successful Graduates

### List of professionals that have successfully completed the Postgraduate State-Approved Veterinary Massage and Rehabilitation Therapy (CVMRT) Program

Proudly Updated: **January 21, 2025**

**\*\* This list contains the licensed professionals who have completed ALL certification requirements. These requirements include (but are not limited to):**

- **Being a licensed professional in good standing with their respective licensing boards.**
- **Attended in sequence the entire Postgraduate State-Approved Certification Program (142 hours of intensive training under the supervision of the attending school faculty).**
- **Attained a passing grade on EACH individual testing section (knowledge, small animal techniques, large animal techniques, case presentations, neuro-muscular-osseous anatomy, and integration evaluation through oral examination, & case presentation).**

**\*\*\* Those who have successfully completed the program can legally use the credentials of **CVMRT** (Certified in Veterinary Massage and Rehabilitation Therapy) after their primary professional degree. Each Alumni must provide the school with a copy of their valid (unexpired) professional license attesting that they are in good standing and have complied with their respective state/provincial regulatory Continuing Education requirements.**

**\*\*\* We have also listed any recognized advanced degree, credentials, or diplomate status after their names. These latter credentials will be listed after their names in parentheses.**

**\*\*\*\* Please remember the importance of informed consent when evaluating and treating a patient.**

**\*\*\*\*List users should call the respective alumni and ask if they need any consultation/referral information, as some states might require specific paperwork/forms if the patient is being seen by any other licensed healthcare provider other than a veterinarian.**
