

***List of Professionals who have successfully completed
the Postgraduate State-Approved Certification in
Veterinary Spinal Manipulative Therapy.***

Proudly updated: August 18, 2021

**** This list contains those doctors that have successfully completed ALL requirements for certification. These requirements include (but not limited to):**

- **Being a licensed professional in good standing with their respective licensing boards (Chiropractic Licensing or Veterinary Licensing Boards).**
- **Attended in sequence, the entire Post Graduate State Approved Certification Program (226hrs of intensive training under the supervision of the attending school faculty).**
- **Attained the passing grade on EACH individual testing section (knowledge, small animal techniques, large animal techniques, case presentations, neuro-muscular-osseous anatomy, and integration evaluation through oral examination).**

***** Those that have successfully completed the program can legally use the credentials of **CVSMT** (Certified in Veterinary Spinal Manipulative Therapy) after their primary professional degree. Each Alumni must provide the school with a copy of their valid (unexpired) professional license attesting that they are in good standing and to have complied with their respective state/provincial regulatory Continuing Education requirements.**

***** We have also listed any recognized advanced degree, credentials, or diplomate status after their names. These latter credentials will be listed after their names in parenthesis.**

****** Please remember the importance of informed consent when evaluating and treating a patient.**

******List users should call the respective doctor and ask if they need any consultation/referral information as some states might require specific paperwork/forms if the patient is being seen by a chiropractor.**

Alaska

Dr. Tamara Rose 907-388-3467, Fairbanks

Alabama

Dr. Mary Battistella 334-857-1816, Eclectic
